

5 tips

to get your business ready for the new Financial Year.

1

Understand your Business Model, cashflow, profits, sales.

2

Plan, Plan, Plan, have a budget and business plan.

3

Use the right software for your business to ensure timely information, sometimes the accounting software is not the best software for managing your business.

4

Have an approachable accountant you can easily talk to, they are part of your team, help with numbers, general business advice, they want you to succeed.

5

Understand people, they are your business, have the right people in the right places, it's a team effort.
